EXPERIENCE

LEAD APP DEVELOPER

Square 205: 2019 – Present

Guides team in project scope, builds front-end applications and server-side APIs

- ◆ Collaborates with developers, designers, and a project manager to discuss client needs, consider creative solutions, and build out features
- ◆ Implemented an API request pattern using GraphQL that improved load times of a React Native application's Google Maps and Feed views by over 50%
- ◆ Developed a Redux-like state management structure using React Hooks and Context in order to manage client side images before saving to Digital Ocean

FRONT END DEVELOPER

Sabre Hospitality Solutions: 2017 – 2019

Built User Interface components for global hotel companies

- ◆ Created an autocomplete search and map view using React Hooks that allowed users to find and filter through over 6,000 hotels by location or name
- ◆ Worked with various custom LAMP stack environments to debug and resolve problems with client website performance and functionality
- ◆ Introduced tools such as React, ES6, Webpack, ESLint, Stylelint, and testing in order to encourage high quality code

WEB DEVELOPER

Freelance: 2017

Worked with the WordPress REST API, React, and front end build tools

EDUCATION PARAPROFESSIONAL

Brazosport Independent School District: 2016 – 2017
